First Quarter Ended March 31, 2024, Financial Results

Total cash and cash equivalents were \$482.9 million as of March 31, 2024. The Company completed a private placement of common stock and pre-funded warrants in February 2024 that provided gross proceeds of \$325.0 million, before deducting placement agent fees and offering expenses. Based on current plans and related estimates of anticipated cash inflows from DEXTENZA®, the Company believes that its current cash balance is sufficient to support its planned expenses, obligations, and capital expenditure requirements into 2028.

Total net revenue was \$14.8 million for the first quarter of 2024, a 10.4% increase over total net revenue of \$13.4 million in the comparable period in 2023, driven by increased DEXTENZA sales. Total net revenue includes both gross DEXTENZA product revenue, net of discounts, rebates, and returns, which the Company refers to as net product revenue, and collaboration revenue.

Research and development expenses for the first quarter of 2024 were \$20.7 million versus \$14.7 million for the comparable period in 2023, reflecting an increase in overall clinical expenses associated with product development programs, specifically the SOL-1 Phase 3 clinical trial.

Selling and marketing expenses were \$10.2 million in the first quarter of 2024, as compared to \$10.8 million for the comparable quarter of 2023, primarily reflecting a decrease in professional fees and a reduction in personnel costs.

General and administrative expenses were \$14.1 million for the first quarter of 2024 versus \$9.1 million in the comparable quarter of 2023, higher primarily due to an increase in personnel-related costs and other expenses.

Net loss for the first quarter of 2024 was \$(64.8) million, or a net loss of \$(0.49) per share on both a basic and diluted basis, compared to a net loss of \$(30.3) million, or a net loss of \$(0.39) per share on both a basic and diluted basis, for the comparable period in 2023. The net loss in the first quarter of 2024 included a \$(28.0) million non-cash loss on extinguishment of debt in connection with the conversion of the Company's convertible notes, and a \$(5.2) million non-cash loss, net, attributable to the changes in the fair value of the derivative liabilities associated with the Company's convertible notes, through the date of conversion, and the Barings credit facility, as compared to a \$(6.6) million non-cash loss attributable solely to the change in the fair value of the derivative liability associated with the Company's convertible notes for the comparable quarter in 2023.

Outstanding shares as of May 3, 2024, were approximately 154.9 million.
